

THE HAZARDOUS PRESENCE OF DEER ON TOWN STREETS

As many of you may have noticed, there is a large presence of deer (and other wildlife) in residential areas within the Town of Truro. While there is not a lot that can be done to prevent this, we should all be aware of their presence and take the proper precautions to prevent injuries from occurring.

Some areas noted to have numerous sightings of deer on the streets are; East Queen Street, Young Street, Wood Street, and throughout the Industrial Park.

However, please be aware they can appear anywhere!
